

Do fungal mycotoxins cause breast cancer?

Truly, there are most likely many different causes of breast cancer, but today virtually no physician considers fungal mycotoxins as “the cause!”

See if you can figure out the similarities in the next 3 slides.

Alcohol Increases Risk of Breast Cancer...

Alcohol can increase a woman's chance of getting breast cancer. It doesn't appear that the type of alcohol a woman drinks makes any difference.

**“Fungi are the cause of many outbreaks
of disease, but are mostly ignored.**

**Fungi can cause a number of life-
threatening diseases...**

**Many people, scientists among them,
are largely unaware.”**
